From
the
Pastor

Dear Parishioners,

Happy Birthday. We celebrate the birth of the church with the feast of Pentecost. The Spirit came and continues to be present as Jesus promised. The church is now the sacrament of Christ and his continued presence among us. To be a sacrament means we the church are the visible presence of Christ in the world. We are the church with all our gifts of leadership and levels of empowerment. We pray for the newly ordained especially Jonathan Kelly as they become priests servant leaders. They will be shaped and formed by the community of believers and we pray that all goes well for them and the communities they are assigned to. As all the parishes of the Archdiocese continue to undergo a reexamination of their mission, we continue our clustering. We are asked to fulfill the mission of the Archdiocese in areas of Worship, Education and Social Justice, These are exciting and challenging times to be led by the Spirit of God as church membership continues to be renewed. We pray that the Spirit will renew the face of the earth. When we pray this, with serious intention, it is a scary thought. It reminds us that all our gifts, we have been given by God, are for the renewal and building up of the community. This is so important for the future wellbeing and vitality of the church for future generations.

Fr. Martin Shallbeter

Choose Life-When the time comes and when parents are able to select the genetic traits of their offspring, "I would oppose not selecting for intelligence. We would assume that people of higher intelligence would have good consequences for society." This statement from Peter Singer, philosopher, author and professor of bioethics at Princeton University, led columnist Jeff Jacoby to question the good consequences produced by Mr. Singer's intelligence through his advocacy of a 28-day period during which newborns could be killed and his conclusion that breeding children for spare parts is "not something really wrong itself." (Jeff Jacoby, Boston Globe, 3/4/09)
